Kevin

I left a phone message for you a minute ago. We wanted to make sure that you are aware of the spill from the BP Whiting refinery and see if you had any recent issues with their NPDES discharge.

Crude oil discharged.

Unknown volume at this time. No estimates provided yet.

No media interest yet. OSC requested PIO support this morning for press statement coordination with BP and USCG.

Additional boom deployed this morning.

Northeast wind last night blew oil onto beach. Southwest wind this morning.

USCG and BP overflights scheduled for today.

20 vac trucks on-scene removing oil from reservoir unit.

Subject: UPDATE #1 - BP Oil Spill - Whiting, Indiana

USEPA (OSC Beslow), USCG and IDEM met with BP at the facility last night. The material is contained, the release into the lake Michigan has stopped and the 24 hrs cleanup activities were initiated by the responsible party.

USEPA will continue the oversight of the cleanup activities.

Additional updates will be submitted later. For more information see NRC report number 1077610.
